## JAPAN IN THE GAME sot insist upon having it. Pifty cont bottles for mile by P. J. Wursburg, drug-gut, No. 56 Monroe street.

The Mikado's Flag Anxious to For Justice of the Supresse Court-Wave Over Hawaii.

Victoria's Pather Plays Both Ends Against Uncle Sam, While Looking Out for England's Interes

San Francisco, March 28. The United States steamer Alliance arrived to Alliance made the trip up from Londulu in eleven days. P. R. Jones, minister of finance on the Hawaiian rovisional government, has resigned, wring to ill health, and T. R. Porter has been appointed to succeed him. A mercement is on foot for political organization among all friends of annexation for the purpose of supporting the government and to assist in securing the annexation of the islands to the United

Blates

It is believed that Japan has designs upon the islands, owing to the employment of a large number of her subjects on the sugar plantations. Chief Justice Justi, in speaking about the matter, instanced lirst that the captain of the Japanese cruiser Maniwa had called upon the provisional government, and said if the United States abandened its protectorate the Japanese would consider no government existed in the islands, and rould raise their flag. The Japanese government officers are said to be profitting through the labors of their subjects, and another thousand of them have left Japan for Hawaii.

British Minister Woodehouse is on friendly terms with the Japanese comprissioner, and it has even been charged that Weedehouse has advised the commissioner as to his policy.

England is Watchful.

Col. Volney Ashford, who was abliged to leave for the states for advoobliged to leave for the states for advo-cating what the provisional government is now seeking to bring about, namely, asperation, in conversation with the United Press correspondent, said that Japan was a power not to be despised, and he was satisfied that the Maniwa would have made an effort to annex or establish a protectorate in the islands had she not been forstalled by Minister Stavens.

The inauguration of a new party, the Hawaiian Patriotic league, last week, having for its object the avowed purposes to maintaining as far as possible the autonomy of the country, shows that opposition to the annexation is growing with delay.

with delay.

In conversation with men of unimpeachable integrity, Friday last, British Minister Woodehouse said: "The flag of the United States will have to come down and the Boston's troops removed," adding that a commissioner would be sent here from the United States to investigate the situation. Certain other remarks of British Minister Woodehouse have given offense to the American have given offense to the American given offense to the Americans here, who believe he is acting without instructions from his government, or rather be-yond those which he may have received. The British cruiser Carnet left here March 14 for Esquimault, S. C., and H. M. S. Hyncinthe is expected to take the Curnet's place here in a few days.

Far and Wide. Not on this broad continent alone, but in malarial breeding tropical regions, in Guatemala, Mexico, South America, the Isthmus of Punama, and elsewhere. Hostetter's Stomach Bitters affords to inhabitants and sojourners protection against malaria. The minor, the freshly arrived immigrant, the tiller of the virgin soil newly robbed of its forceds by the rake of the pioneer, find in forests by the rake of the pioneer, find to superh antifebrile specific a preserver against the poissoners minema which in vast districts rich in natural resources, is jet fer-tile in disease. It annihilates disorders of the stemach liver and boseds, fortifies those who use it against rhomastic allments breed and festored by outdoor exposure; infuses geneal samuth into a lemme chilled by a resource temperature, and robs of their power to harm meaning and evening mists and repore index with fortfulness; strength-ens the weak and compacts inciplent killney trouble.

### A Positive Feet.

Ladies, do not delay your valuable time by waiting and suffering but se-cure a bottle of Dullam's Great German Female Uterine Tomic and be cured of over monthly trouble either in old and leaver presentled in my exhibition for the present of the first present of the least results in the greatest number of cases of female troubles of any medicine I ever used. I lo not make a practice of using or rec monoming patent medicines, but this mundy is prepared by a very competent physician and chemist of my acquaint-

clously recommend it as the best.

### THE SAGE ENAMORED. How Stald Philosophy Fires Before a Glidy Girl's Arch Eyes.

The sage enamored is not always a pleasing spectacle, for however philosophical a man may be, however powerful in intellect, he makes himself just as absurd and ridiculous when he falls in love as any pin-feathered, downylipped undergraduate in the ranks. There still lives in Bohemia, says report, a woman of ninety to whom the port, a woman of ninety to whom the great Goethe proposed when she was a maiden of seventeen and he a patriarch of seventy. To the younger generation it seems almost incredible that one of Goethe's loves could still be living, for the poet died more than sixty years ago. The absurdity of the gifted old man, crowned with honor and fame, falling in love with a schoolgirl and actually proposing marriage to her, in spite of the disparity in their ages, after all illustrates the brotherhood of man. They have all, gifted and simple man. They have all, gifted and simple allite, the same family trait, a weak-ness for women. It was the poet Lowell to whom a stanch admirer of the first Mrs. Lowell, and a firm be-liever in the husband's permanent widowerbood, wrote concerning the rumors of his second marriage, and begging to know whether she was to believe him a never-to-be-consoled husband or after all "just like any other man." The an-swer came promptly: "Dear Madam-Just like any other man."

The strongest recommendation that any article can have is the indorsement of the mothers of the town. When the mothers recommend it you may know that that article has more than ordinary merit. Here is what the Centerville, South Dakota, Citizen says editorially of an article sold in their town: "From personal experience we can say that Chamberlain's Cough Remedy has broiten up bud colds for our children. We are acquainted with many mothers in Centerville who would not be without it is the house for a good many times its cost, and are recommending its very day." 50 cent bottles for sale by F. J. ## FIND BUT FEW SEALS

The Newfoundland Fishery Is Nearly Exhausted.

THE WORST CATCH ON RECORD

St. Johns Built Her Hopes on the Catch, and This Will Cramp the Country's Business.

Sr. Jones, N. F., March 28.-The prespects of the Newfoundland scal fishery are very gloomy. The schooner Island Gem, which arrived here this stand Gem, which arrived here this evening with 2,700 seals, reports the steam fleet almost totally without seals. The fishery will probably be the worst on record. Last year the take was over 350,000. This year it will probably be one-third of that, worse even than in 1882, the smallest number in seventy years. This misfortune has a terribly depressing effect upon St. Johns, as it was hoped that a good fishery would have helped to rebuild the town. It is now feared that the general business of the country will be greatly cramped.

Visited Kossuth.

Tunin, March 28.—Louis Kossuth, the aged Hungarian patriot who is living in exile in this city, today received a deputation of his fellow countrymen and admirers. In discussing with the deputation the political situation in Hungary, Kossuth said that the ecclesiastical program of the Hungarian government was the key to Hungary's future, and that this program ought to be supported unconditionally by all lovers of the country, Kossuth is enjoying as good health as could be expected in a man of his extreme age. He is now over 30 years old Visited Kossuth.

Waited on Gladstone. Waited on Gladstone.

London, March 28.—A deputation from the chamber of commerce, the harbor commissioners and lines merchants of Belfast waited upon Mr. Gladstone, at his residence in Downing street regarding the home rule bill today, and were accorded a lengthy interview. They protested against the measure. Mr. Gladstone retorted sharply, and intimated that the depression in Ireland is caused by political feeling among property holders.

Driven Out of Paris. Pasis, March 28.—Otto Brandes, Paris correspondent of the Perliner Tageblatt, who was ordered from the country on suspicion of having been the author of an article charging Ernest Carnot with receiving Panama money, went to the police bureau this morning and gave notice that he would start for Germany at once. A mob stoned them out of Paris, the government giving them no protection.

Left on a Desert Isle. London, March 28.—The captain of a cattle steamboat sailing from Liverpool put nine American stowaways on shore at Capel Island, which is uninhabited. They were rescued from the island by the crew of a fishing boat and conveyed to the neighboring headland of Knockadoor. They then proceeded to Queens-

City or Mexico, March 28.—The Hon Jose Ives Limantour, secretary of the treasury, is at present engaged in preparing a number of important re-forms in the customs service of Mexico

and the tariff will be simplified at an

Marion Harland, on pages 103 and 415 of her popular work, "Eve's Daughters; or, Common Sense for Maid, Wife and Mother," says:
"For the aching back—should it be

slow in recovering its normal strength an Alleock's Porous Plaster is an excel-lent comforter, combining the sensation of the sustained pressure of a strong warm hand with certain tonic qualities developed in the wearing. It should be kept over the seat of uneasiness for several days in obstinate cases, for perhaps a fortnight.

"For pain in the back wear an All-cock's Porous Plaster constantly, re-newing as it wears off. This is an in-valuable support when the weight on the small of the back becomes heavy and the achievement. and the aching incessant.

Three days is a very short time in which to cure a bad case of rheumatism; but it can be done, if the proper treatment is adopted, as will be seen by the following from James Lambert of New Brunswick, Ill.: "I was badly afficted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm. It cured me in three days. I am all right today; and would days. I am all right today; and would insist on everyone who is afflicted with that terrible disease to use Chamberlain's Pain Baim and get well at once."

Continuation of the Remarkable Testimony in Favor of Drs. Copeland and Graham's Method of Trestment in the Chronic Diseases Amnog Their Specialties - Mrs. Livermore's Signed

Statement

We can safely say, without fear of contradiction, that such remarkable testimony as-has been publicly given each week in favor of the Cepeland method of tecament and the physicians associated with him, was never before bestowed upon any physician or sys-

Why do these patients feel it a duty and consider it a pleasure to recommend this treatment to their friends and suffering nanity in general?

Because, having suffered themselves for pears, having paid out large sums without benefit, and having been tortured with severe treatment beyond endurance, they want the public to know that there are physicians capable and willing to treat and cure these affections without experimental and cure these affections without experimental and unnecessary torture, and who do not charge such excessive fees that but lew are able to pay.

Because a physician by the peculiarity of his training and fitness in successfully treating certain diseases becomes and expert specialist in these diseases, there is no reason why he should be licensed to rold his patients, as many specialists practically do. Drs. Copeland and Graham are estissied with reasonable fees, and while their work is very laborious, almost at times beyond endurance, they are willing to devote their time and strength and the best work of their lives to suffering humanity. This is also why persons, who have the welfare of their follow beings at heart, take pleasure in indorsing the good and humane work Drs. Copeland and Graham are doing every day.

Today, through these columns, your neighbors and friends speak to you; they have no interest in and no intent of deceiving you; you believe these people in other things, why not read and consider what they say regarding Drs. Copeland and Graham?

Read what Mr. Henry Brandon says. years, having paid out large sums without
